

### **Third of downriver series at Frostbites following abandonment last week due to excessive winds**

With a running start on Sunday 10 Norfolk Dinghies set off downstream from the Clubhouse. Danny Tyrrell in Twinkle crewed by Bruce Thompson was well over the line at the starting signal and by the time he had returned to restart he was well behind the fleet. However in clear air he soon caught up and led the race for much of the time. Under the flyover and through the tree lined "grove" other contenders were David Mackley in Lucifer crewed by Olivia Archer and Sam Woodcock in Kelpie crewed by Sam Archer, both passing Tyrrell in the more open water heading up to Bramerton. They finished in that order in around 45 minutes with David Yapp coming up in fourth sailing Dodman and crewed by Julia Deary.

After a suitable period Abigail Stevenson accurately gave the starting signals for the return and this time Yapp came away from the start in the lead closely followed by Wendy Bush helming Pixie and crewed by Phil Board. Under the flyover after a couple of neat tacks Sam Archer now helming Kelpie took the lead and finished first after 52 minutes. Yapp finished second 4 minutes later with Tyrrell right on his tail taking third.
